

Introduced by Senator Alquist

February 21, 2008

An act relating to public resources.

LEGISLATIVE COUNSEL'S DIGEST

SB 1484, as introduced, Alquist. Public resources: clean technology: business incentives.

Existing law generally regulates certain activities with regard to the use of, or detriment to, public resources, including, but not limited to, air and water resources and wildlife, coastal, and park land.

This bill would declare the intent of the Legislature to create incentives for clean technology developers to manufacture in California.

Vote: majority. Appropriation: no. Fiscal committee: no.
State-mandated local program: no.

The people of the State of California do enact as follows:

- 1 SECTION 1. It is the intent of the Legislature to create
- 2 incentives for clean technology developers to manufacture in
- 3 California.
